PROFESSIONAL SUMMARY

Results-driven Senior Oracle Technical Consultant with over 7 years of experience in delivering strategic Oracle E-Business Suite (EBS) solutions for diverse clients across Industry. Adept at leveraging deep technical expertise and hands-on proficiency in Oracle technologies to drive operational efficiencies, streamline business processes, and optimize EBS implementations.

Proven track record in leading and managing complex EBS projects from inception to successful delivery, consistently exceeding client expectations. Expertise in PL/SQL development, Oracle Forms and Reports, and Oracle Workflow, combined with a strong aptitude for performance tuning, ensures high-performing and scalable EBS solutions.

Skilled in bridging the gap between business objectives and technical implementation, collaborating closely with cross-functional teams to translate client requirements into effective EBS solutions. Strong documentation and communication abilities, coupled with a commitment to staying current with emerging Oracle technologies and industry best practices.

WORK HISTORY

DEPUTY MANAGER ERP, 09/2019 - Current

Changan Motors Limited, Karachi, Pakistan

- Led the team of Oracle EBS developers in designing, developing, and implementing custom solutions tailored to business requirements. Created custom PL/SQL packages, forms, reports, and workflows to enhance system functionality.
- Collaborated with cross-functional teams, including business analysts and functional consultants, to gather and analyze business requirements and translate them into technical solutions.
- Developed custom BI Publisher reports and integrated them into Oracle EBS for improved reporting capabilities.
- Conducted in-depth performance analysis of Oracle EBS modules and optimized SQL queries, resulting in 25% improvement in system response time. Collaborated with database administration team to fine-tune database performance.
- Worked on integration projects like 'Parts Integration System' & '3rd Party Logistics'.
- Worked with off-shore team to develop system for International Client as technical lead.
- Intensively worked on Purchasing, Inventory and Order Management API's in different projects.
